OUR **HALP** :

Since 1990, TMI Centre D'excellence is a trusted partner in IT & IP training in Tunisia and the MENA region.

As HALP, Huawei Authorized Learning Partner, we provide a wide range of Huawei learning programs, regardless of your level of experience. Our experts will guide you from the most basic courses to the more advanced ones, covering all areas of IT & IP: Networks, Systems, Solutions and Methods

HUAWEI CERTIFICATION : **YOUR COMPETITIVE ADVANTAGE**

The Huawei Certification Program gives you the foundation to succeed in this fast-paced technological environment. Our team of experts is available to cover areas of knowledge such as: Datacom , Storage and Security. Our trainings give you an opportunity to prepare for world-class certifications:

TMI

ORADIST

Our fully connected and agile training center is specifically designed to meet the new requirements of students and thereby enhance their learning experience:

8 training rooms that can accommodate from 5 to 30 people

A friendly space for relaxation or informal work equipped with colorful and comfortable furniture, open to students.

Pearson Vue exam center

Computers, projectors, screens and state-of-the-art infrastructure.

Optical fiber and high speed internet

Outdoor terraces

OUR OPTIONS

Flexible and responsible, TMI adapts to the needs of our customers .

This is why we offer various learning methods, with solutions that are equally dynamic and interactive.

HCIA DATACOM

COURSE DURATION : 5 DAYS
LEVEL : BASIC

COURSE OVERVIEW :

This course provides basic datacom knowledge and skills. HCIA-Datacom V1.0 includes the following contents: Routing and switching principles, basic WLAN principles, basic knowledge of network security, basic knowledge of network management and O&M, and basic knowledge of SDN and programming automation.

This course is intended for Engineers who need to master basic datacom knowledge and capabilities, and have capabilities in small- and medium-sized network planning and design, deployment implementation, and O&M optimization.

Request your quote on www.tmifformation.com

HCIP DATACOM

COURSE DURATION : 10 DAYS

LEVEL : INTERMEDIARY

COURSE OVERVIEW :

The HCIP Datacom certification covers the advanced knowledge and skills required for enterprise networks. Certified HCIP Datacom engineers are able to build complete small and medium-sized enterprise networks that fully integrate voice, wireless, cloud, security, and storage applications required by businesses, meeting the networking requirements of diverse applications and ensuring high security, availability, and reliability

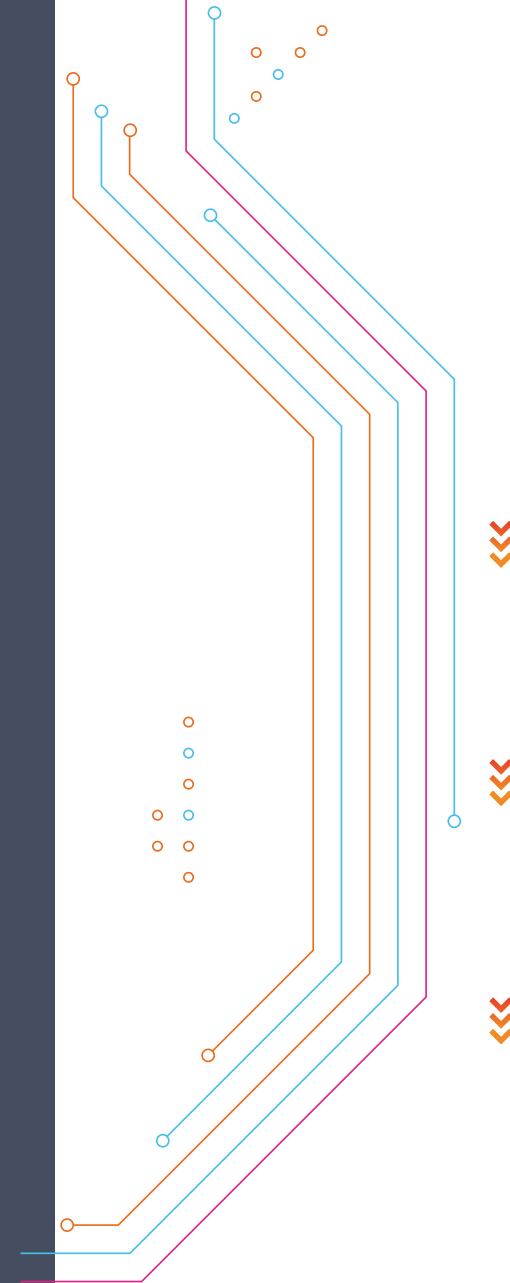

Request your quote on www.tnifformation.com

HCIE DATACOM

COURSE DURATION :10 JOURS
LEVEL : ADVANCED

COURSE OVERVIEW

The HCIE DATACOM certification covers the specialized knowledge and skills required for enterprise networks. HCIE DATACOM certified engineers have comprehensive troubleshooting capabilities, and are able to plan enterprise networks and business development, and ensure network security, availability and reliability.

Request your quote on www.tmiinformation.com

HCIA STORAGE

COURSE DURATION : 5 JOURS
LEVEL : BASIC

COURSE OVERVIEW

The HCIA-Storage certification covers the knowledge and skills in storage systems.

HCIA-Storage certification holders are able to build networks and storage area networks and systems (SANs) using Huawei storage equipment and perform the corresponding maintenance operations.

The HCIA-Storage training helps enterprise IT engineers develop the skills needed to plan, implement, operate and maintain storage within the organization.

Request your quote on www.tmiinformation.com

HCIP STORAGE

COURSE DURATION : 10 DAYS

LEVEL : INTERMEDIARY

COURSE OVERVIEW :

The HCIP-Storage certification covers integrated solutions and competencies in the field of enterprise IT storage.

HCIP-Storage certificate holders are able to design, deploy, manage, and maintain enterprise storage solutions. The HCIP-Storage certification program aims to train IT storage professionals who can help organizations build intelligent and efficient computing platforms that enable reliable storage and efficient use of enterprise information and data.

Request your quote on www.tmiinformation.com

HCIE STORAGE

COURSE DURATION : 10 DAYS
LEVEL : ADVANCED

COURSE OVERVIEW :

The HCIE-Storage certification covers the full range of storage solutions and skills needed by businesses.

HCIE Storage certificate holders have:

- ▶ A complete and thorough understanding of information storage technologies
- ▶ An expertise of complex storage applications
- ▶ The ability to design, deploy, maintain and optimize storage solutions for data centers
- ▶ The ability to build enterprise storage platforms using Huawei storage products

Request your quote on www.tmiinformation.com

HCIA SECURITY

COURSE DURATION : 5 DAYS
LEVEL : BASIC

COURSE OVERVIEW :

The HCIA- Security certification covers the knowledge and skills in enterprise network security.

Holders of the HCIA-Security certificate are able to perform basic operations related to enterprise network security. The courses are designed to help enterprise network engineers design and use Huawei security equipment to build secure small and large enterprise networks.

Request your quote on www.tmiinformation.com

HCIP SECURITY

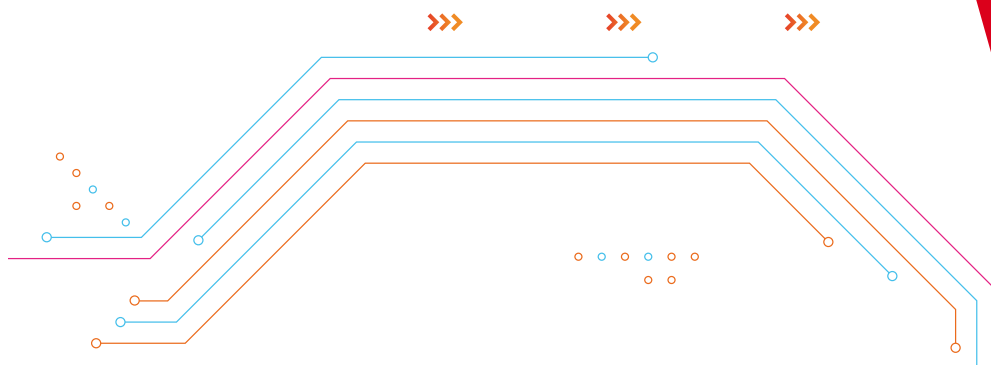

COURSE DURATION : 10 DAYS

LEVEL : INTERMEDIARY

COURSE OVERVIEW :

The HCIP-Security certification covers integrated solutions and competencies in enterprise network security. Holders of the HCIP-Security certificate are able to design secure architectures for enterprise networks and to deploy, manage and operate these networks.

The HCIP-Security certification focuses on building secure enterprise network architectures, endpoint security management systems and content security networks in order to achieve multi-dimensional security.

Request your quote on www.tmifformation.com

HCIE SECURITY

COURSE DURATION : 10 DAYS
LEVEL : ADVANCED

COURSE OVERVIEW :

HCIE-Security certification holders have the knowledge and skills required to design, deploy, manage, and optimize network security solutions. They have a comprehensive understanding of network security technology and can address increasingly diverse cyber security challenges.
